

Technical Advisory Council (TAC) Meeting

11 March 2025

DLFENERGY

Meeting information

- Meeting to begin at 4:00 pm Central European Time
- Join the meeting at the link in your calendar in [LFX Individual Dashboard](#)
- Any problems with connectivity, you can contact John Mertic from the Linux Foundation at +1 234-738-4571
- Previous TAC Meeting notes, deck, and recording, at <https://wiki.lfenergy.org/display/HOME/Technical+Advisory+Council#TechnicalAdvisoryCouncil-MeetingMinutes>

Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Agenda

All Times in Central European Time Zone

- 5:00 pm - 5:15pm - Opening and General Updates
 - TAC member updates and project review date reminders
 - Project Pipeline
 - Previously TAC approved projects stalled in LF onboarding (<https://github.com/lf-energy/tac/issues/390>)
- 5:15 pm - 5:35 pm - TAC Priorities 2025 review (<https://github.com/lf-energy/tac/issues/436>)
- 5:35 pm - 5:55 pm - OpenSynth Annual Review (<https://github.com/lf-energy/tac/issues/68>)
- 5:55 pm - 6:15 pm - Grid Capacity Map Annual Review (<https://github.com/lf-energy/tac/issues/6>)
- 6:15 pm - 6:25 pm - Marketing/PR/Events updates
- 6:25 pm - 6:30 pm - Closing and Next Meeting

TAC Resources

- TAC Website -
<https://tac.lfenergy.org>
 - Contains all the TAC policies and meeting materials, as well as guides to using the various LF Energy tools
- TAC Overview -
https://github.com/lf-energy/foundation/blob/main/overview_deck/LF%20Energy%20TAC%20Overview.pdf
 - Guide for TAC members on their role and how to navigate LF Energy

Questions/feedback - let us know!

The image shows a screenshot of the LF Energy Foundation TAC website and a presentation slide. The website header includes the LF ENERGY logo, a search bar, and a link for help. The navigation menu lists Home, Getting Involved, Processes, Meetings, Programs, Tools, Resources, and Code of Conduct. The main content area is titled 'LF Energy Foundation TAC' and describes the role of the Technical Advisory Committee (TAC) as defined in the Directed Fund Charter. It lists several responsibilities: coordinating collaboration among Technical Projects, making recommendations to the Budget Committee, electing a chairperson, and creating/amending project lifecycle procedures. The presentation slide, titled 'Technical Advisory Council (TAC) Overview', is dated December 2024 and features the LF ENERGY logo and the number 1 in the bottom right corner.

LF Energy Foundation TAC

Per the [Directed Fund Charter](#), the role of the Technical Advisory Committee (TAC) is to facilitate communication and collaboration among the Technical Projects. The TAC will be responsible for:

- Coordinating collaboration among Technical Projects, including development of an overall technical vision for the community;
- Making recommendations to the Budget Committee of resource priorities for Technical Projects;
- Electing annually a chairperson to preside over meetings, set the agenda for meetings, ensure meeting minutes are taken and who will also serve on the Governing Board as the TAC's representative (the "TAC Representative");
- Creating, maintaining and amending project lifecycle procedures and processes, subject to the

Technical Advisory Council (TAC) Overview

December 2024

LF ENERGY

1

Project Pipeline

- [CUPID \(Controllable Unit Protocol Interface for DER\)](#) a continuation of EU research project [InterSTORE](#), builds on and extends a reference implementation of IEEE 2030.5 for DER communication interoperability. Will be hosted out of LF Europe, will bring to TAC in Q2.
- [RTC-Tools](#) is a mature, leading open-source solution for the operational optimization of water and energy systems. Contributed by Deltares and Shell. Working through licensing issues, and aim to have TAC review in 1H.

Previously TAC approved projects stalled in LF onboarding

<https://github.com/lf-energy/tac/issues/390>

- Interconnect SIF - meeting held March 10th to review governance questions
- Onenet Framework - second follow-up; Anto helping with moving things forward.

Made proposed adjustment to lifecycle to address project's stalling out in LF Onboarding (<https://github.com/lf-energy/tac/pull/439>)

DISCUSSION: TAC review of proposal

TAC Priorities 2025 review

5:15 pm - 5:35 pm

DLFENERGY

TAC Priorities as aligned to with TAC

Strikethrough items are DONE

- ~~● Move to monthly TAC meetings instead of every 3 weeks~~
- ~~● Start office hours for SIG leaders to share best practices~~
- ~~● Spin down Data Standards and Tooling and Grid Operations SIGs~~
- ~~● Move affected project annual reviews to the TAC~~
- ~~● Security Audits - TAC align on two projects to prioritize (EVerest, PowSyBL)~~
- Security Audits - TAC to prioritize next project(s) to focus on ([Determine prioritization for Security Audits #408](#))
- Project Lifecycle - Review and make adjustments to align with current project needs (last changes made in 2021)
- Project landscape <https://landscape.lfenergy.org/> - Update this to reflect the latest projects and how we want to message the ecosystem
- Include LFESS Working Groups in TAC annual review process - Won't be voted on; goal is to drive awareness and aid in cross collaboration.
- Project workshops with LF Energy Summit (tentatively Sep 10-11 in Aachen, Germany) - Consider if your project / SIG would like to leverage LFE Summit for an in-person meeting
- Assemble and execute on a plan to inject fresh energy and increase engagement with the TAC
- Plan for TAC to allot funding/resources for hosted projects for cloud infrastructure and other needs
- Documentation audit/support
- ~~● Revisit TAC Leadership structure~~

OpenSynth Annual Review

5:35 pm - 5:55 pm

OLFENERGY

Grid Capacity Map Annual Review

5:55 pm - 6:15 pm

DLFENERGY

Marketing/PR/Events Updates

6:15 pm - 6:25 pm

DLFENERGY

Marketing and PR Updates

- Webinars
 - [GEISA webinar](#) had 130 registrations and 87 attendees; extremely well received
 - Seeking more project webinars as schedule is currently open
- New Project Launches
 - [NODE Collective](#) - webpage now live
 - FIDOPower (formerly OpenFIDO) - name change approved; logo in review
- Case Studies
 - [RTE/SEAPATH case study](#) published last week
- 2024 Annual Report
 - In final design stage; should publish next week
- Website
 - Restructuring mostly complete
 - New homepage live
 - All SIGs now have their own webpage
 - Project page revamps are next; web team is creating a new template so this is likely to be delayed ~1 month
- [Event tracker](#) - please review and add any additional opportunities
- Use this [form](#) to submit any comms/marketing support requests
- See [media coverage spreadsheet](#) or [website](#) for recent articles

Collaboration for the digital energy transition

LF Energy is the independent home for shared development of open industrial-grade technology platforms, data sets, and agile standards to solve common challenges and drive innovation.

Why LF Energy

LF Energy provides a community to build shared digital investments that transform the energy sector.

LEARN MORE

Get Started

Get acquainted with the community and projects, and how you can get involved.

GET STARTED

Attend Our Events

Attend virtual and in-person events to level up your knowledge and network with partners.

EXPLORE EVENTS

Projects

LF Energy projects are helping transform the world's power systems rapidly to electrification. LF Energy provides a neutral development environment that accelerates the pace of innovation and targets investments in a coordinated and efficient manner.

EXPLORE PROJECTS

Featured Projects

The **Carbon Data Specification (CDS)** is a data dictionary for raw data and a standard for data requirements that enable energy data access for measuring, quantifying, and tracking carbon emissions from energy production and consumption.

[Explore Project](#)

The **Everest** project speeds up the emerging change to e-mobility by utilizing open source advantages for the EV charging world. Everest ensures interoperability and reliability of EV chargers.

[Explore Project](#)

Hosted Events Updates

- [GEISA Meetup at DISTRIBUTECH](#)
 - March 26 - Dallas, TX
 - Goal: introduce GEISA to a utility and vendor audience at DISTRIBUTECH
 - **Registration now open for this 3 hour session**
- Open EV Charging Workshop at CharIN festival
 - May 15, 2025 – Detroit, USA
 - Goal: leverage existing industry event to increase awareness in LF Energy EV charging projects, attracting new adopters and contributors
 - **Finalizing agenda with CharIN this Thursday; website to launch soon**
- [Power Grid Model Meetup](#)
 - May 21 - Delft, Netherlands
 - Goal: annual in-person and virtual meeting to bring the community together and introduce it to new users/contributors
 - **Registration now open**
- [LF Energy Summit Europe](#)
 - Sep 10-11, 2025 – Aachen, Germany
 - Goal: the main event to share and collaborate for the LF Energy community, strengthening existing relationships and bringing new collaborators into the community
 - **Sponsorships already outpacing 2024**
 - **CFP and registration to open on April 9**
 - **Projects that wish to have meetups onsite need to submit our [request form](#) by March 28**
- [LF Energy Summit North America](#)
 - Oct 3, 2025 – Montréal, Québec
 - Goal: at the end of CIGRE, provide a forum for North American LFE community members to convene in person. Also, attract new collaborators to the community.
 - **Registration to open in late April**

Upcoming Event CFPs

North America

- [Energy Thought Summit - May 19-22, 2025 - San Antonio, TX - Rolling submission deadline](#)
- [FERC Software Conference: Increasing Real-Time and Day-Ahead Market and Planning Efficiency Through Improved Software - July 8-10, 2025 - Washington, DC - Submission deadline March 21](#)
- [National Clean Energy Week - Sept 15-19, 2025 - Washington, DC - Rolling submission deadline](#)

Europe

- [MOVE - June 18-19, 2025 - London - Rolling submission deadline](#)
- [OpenSouthCode - June 20-21, 2025 - Malaga, Spain - Submission deadline March 31](#)
- [Open Source Summit Europe - August 25-27 - Amsterdam - Submission deadline April 14](#)
- [Climate Tech Show - October 1-2, 2025 - London - Rolling submission deadline](#)
- [Enlit Europe - November 18-21, 2025 - Bilbao, Spain - Rolling submission deadline](#)

Closing and Next Meeting

6:25 pm - 6:30 pm

DLFENERGY

Next TAC Meeting

The next meeting of the LF Energy TAC is scheduled for 8 April 2025 at 8:00 am US Pacific Time/11:00 am US Eastern Time/5:00 pm Central European Time. Agenda will include:

- General Updates
- SAM proposal to move to Emeritus
- Shapeshifter Annual Review
- OperatorFabric Annual Review
- Open Renewable Energy System (ORES) Working Group
- Marketing/PR/Events update

To add agenda items, go to <https://github.com/lf-energy/tac/issues/new/choose>.

You can review the TAC Agenda at <https://github.com/orgs/lf-energy/projects/2/views/1>
